Biographical Sketches and Genealogies of Illustrious Jewish Families from the 15th-21st centuries An unreliable guidebook to jewellery accompanied the retrospective exhibition Lisa Walker: She wants to go to her bedroom but she can't be bothered at RMIT Design Hub Gallery, 29 January - 4 May 2019. This volume considers how the work of New Zealand jeweller Lisa Walker can be thought of as a career-length conversation with the question 'What is jewellery?' In doing so it foregrounds the act of asking questions and the pleasure and importance of the 'as yet understood'. The narratives that emerge within this book offer an open ended reflection on Lisa's work, moving across different time periods, going off on tangents but returning to the many concerns of the field in which Lisa has so firmly embedded herself. Beschrijving van de lotgevallen (1903-1945) van een joodse familie uit Frankfurt waarvan de leden zich over de hele wereld hebben verspreid. Moritz Wertheim dirige une entreprise prospère de textile qu'il lèguera bientôt à ses fils, et notamment à Eduard, le plus jeune de la fratrie, tout juste rentré des États-Unis. C'est avec sérénité que les Wertheim entament ce XXe siècle plein de promesses aux côtés de leurs concitoyens. Ils forment une famille juive parfaitement assimilée qui participe à la vie économique allemande, qui célèbre Noël, qui est prête à tout pour défendre l'Empire à l'image d'Eduard qui s'engage dans l'armée au moment où la Grande Guerre est déclarée. Mais avec la défaite qui s'ensuit et la crise qui gagne tout le pays, la tension est à présent palpable dans les rues de Francfort. Les premières lois antijuives sont votées, la montée de l'antisémitisme pousse certains membres de la famille Wertheim à partir. Eduard se rend en Suisse, son frère Jacob aux Pays-Bas, leurs neveux et nièces

aux États-Unis ou encore en Palestine. Puis c'est la Seconde Guerre mondiale qui éclate et qui conduit plusieurs membres de la famille vers la mort, laissant les survivants terrassés par la découverte de ce que leur pays avait fait aux leurs. En multipliant les regards et les sensibilités de ces fabuleux personnages qui peuplent sa saga familiale, Silvia Tennenbaum dépeint avec justesse la complexité de l'histoire de la bourgeoisie juive allemande. Son rapport particulier à la religion, au patriotisme, mais également son rôle dans les grandes idéologies de l'époque : le nationalisme, le communisme et le sionisme. L'auteur nous entraîne tout au long de ces vies qui composent une émouvante fresque de la première moitié du XXe siècle. The Publishers Weekly bestseller list started on May 3, 1919; the New York Times Book Review list began on October 6, 1935. Though the lists do not always reflect the best in American publishing, they do offer a myriad of insights into popular culture. All books that have appeared on any of the Publishers Weekly or New York Times lists are included in this comprehensive reference work. Arranged alphabetically by author and then by book, each entry includes the book's title, publisher, lists on which it appeared and dates it debuted thereon, peak position, and total number of weeks on the lists. Information is provided for hardcover, paperback, and other special editions when appropriate." As individual subjects, creativity and personality have been the focus of much research and many publications. This Cambridge Handbook is the first to bring together these two topics and explores how personality and behavior affects creativity. Contributors from around the globe present cutting-edge research about how personality traits and motives make creative behavior more likely. Many aspects of personality and behavior are examined in the chapters, including genius, emotions, psychopathology, entrepreneurship, and multiculturalism, to analyse the impact of these on creativity. The Cambridge Handbook of Creativity and Personality Research will be the definitive resource for researchers, students and academics who study psychology, personality, and creativity. THE LAST WITNESS is the incredible story of a man - Wim Aloserij - who survived three concentration camps and a major maritime disaster at the end of WW II. The book was on the Dutch bestseller list for 25 weeks and has sold over 75,000 copies. It has been sold in pre-empted to Orion in the UK and to Newton Compton in Italy. Every 3rd issue is a quarterly cumulation. This open access book gives an overview of the sessions, panel discussions, and outcomes of the Advancing the Science of Cancer in Latinos conference, held in February 2018 in San Antonio, Texas, USA, and hosted by the Mays Cancer Center and the Institute for Health Promotion Research at UT Health San Antonio. Latinos - the largest, youngest, and fastest-growing minority group in the United States - are expected to face a 142% rise in cancer cases in coming years. Although there has been substantial advancement in

cancer prevention, screening, diagnosis, and treatment over the past few decades, addressing Latino cancer health disparities has not nearly kept pace with progress. The diverse and dynamic group of speakers and panelists brought together at the Advancing the Science of Cancer in Latinos conference provided in-depth insights as well as progress and actionable goals for Latino-focused basic science research, clinical best practices, community interventions, and what can be done by way of prevention, screening, diagnosis, and treatment of cancer in Latinos. These insights have been translated into the chapters included in this compendium; the chapters summarize the presentations and include current knowledge in the specific topic areas, identified gaps, and top priority areas for future cancer research in Latinos. Topics included among the chapters: Colorectal cancer disparities in Latinos: Genes vs. Environment Breast cancer risk and mortality in women of Latin American origin Differential cancer risk in Latinos: The role of diet Overcoming barriers for Latinos on cancer clinical trials Es tiempo: Engaging Latinas in cervical cancer research Emerging policies in U.S. health care Advancing the Science of Cancer in Latinos proves to be an indispensable resource offering key insights into actionable targets for basic science research, suggestions for clinical best practices and community interventions, and novel strategies and advocacy opportunities to reduce health disparities in Latino communities. It will find an engaged audience among researchers, academics, physicians and other healthcare professionals, patient advocates, students, and others with an interest in the broad field of Latino cancer. Dort, wo heute in Frankfurt die Doppeltürme der Deutschen Bank aufragen, kommt 1903 Lene Wertheim zur Welt. Die Wertheims sind eine alteingesessene jüdische Familie mit festen Grundsätzen: Man feiert Weihnachten als prunkvolles Familienfest, zum Entsetzen der orthodoxen Verwandtschaft. "Die Juden sind wie alle anderen, und wenn sie es nicht sind, sollten sie es sein", erklärt Eduard Wertheim, Bankier, Kunstsammler und Mäzen, seinen Nichten und Neffen. Lene erhält 1938 in Paris für sich, ihren zweiten Mann und ihre Tochter Ausreisevisa für die USA. Aber nicht alle Wertheims haben das Glück, sich rechtzeitig vor den Nazis in Sicherheit bringen zu können. Silvia Tennenbaum berichtet in kraftvollen Bildern vom Aufstieg einer jüdischen Familie im Kaiserreich, begleitet ihre verschlungenen Wege durch die Weimarer Republik und lässt uns Leser Flucht und Tod im "Dritten Reich", Vertreibung und Rettung eindringlich miterleben. Ein großer, epischer Roman unserer Zeit Animal Behavior for Shelter Veterinarians and Staff presents and evaluates the available research and programs that address both animal and human behaviors associated with the intake, management and rehoming of dog and cats. Introductions to dog and cat behavior relevant to any animal professional Reviews behavioral reasons for the relinquishment of

dogs and cats Describes intake and assessment protocol, shelter design, training and enrichment programs that reduce stress and enhance behavioral well-being Concepts to improve the adoption process and support the human-animal bond post-adoption Set in one day in 1632, *The Anatomy Lesson* is a stunning portrayal of Golden Age Amsterdam and a brilliantly imagined back-story to Rembrandt's first great work of art. Told from several points of view, ranging from a curio dealer who collects bodies for the city's chief anatomist to philosopher Rene Descartes, the novel opens on the morning of the medical dissection that is to be recorded by the twenty-six-year-old artist from Leiden who has yet to attach his famous signature to a painting. As the story builds to its dramatic and inevitable conclusion, the events that transpire throughout the day sway Rembrandt to make fundamental changes to his initial composition. These changes will remain mysteries for centuries until a young art historian closely examines the painting in the twenty-first century, and makes surprising discoveries about the painter, his process, and his genius for capturing enduring truths about human nature in a single moment. This book equips readers with the knowledge required to improve diagnosis and treatment and to implement integrated prevention programs in patients with eating and weight disorders. It does so by providing a comprehensive, up-to-date review of research findings and theoretical assumptions concerning the interface and interactions between body image and such disorders as anorexia nervosa, bulimia nervosa, binge eating disorder, other specified feeding and eating disorders, orthorexia nervosa, overweight, and obesity. After consideration of issues of definition and classification, the opening part of the book examines the concept of body image from a variety of viewpoints. A series of chapters are then devoted to the assessment of the multidimensional construct "body image", to dysmorphophobia/body dysmorphic disorder, and to muscle dysmorphia. The third part discusses body image in people suffering from different eating disorders and/or overweight or obesity, and two final chapters focus on body image in the integrated prevention of eating disorders and obesity, and cultural differences regarding body image. The book will be of interest to all health professionals who work in the fields of psychiatry, clinical psychology, eating disorders, obesity, body image, adolescence, public health, and prevention. In den vergangenen Jahren haben der Anschlag auf die Synagoge in Halle an der Saale und andere antisemitische Vorfälle die deutsche Öffentlichkeit aufgeschreckt. Es häufen sich die Nachrichten, wonach sich Juden in Deutschland wieder unsicher fühlen und erneut mit dem Gedanken spielen, das Land zu verlassen. Doch nimmt der Antisemitismus in Deutschland und Europa tatsächlich zu? Und wie kann die nichtjüdische Mehrheit einer solchen Entwicklung begegnen? In dem vorliegenden Buch gehen renommierte Wissenschaftler und Journalisten diesen Fragen nach, erläutern die Defizite in der Kommunikationskultur, die einer Verständigung verschiedener Bevölkerungsgruppen im Wege stehen, und entwickeln Vorschläge, wie sie sich überwinden lassen.
